### Motherwell Finds Prairie Crop at Present Gives Excellent Promise

### FEDERAL MINISTER BELIEVES 1925 WHEAT CROP LIKELY TO SET NEW RECORD FOR VALUE

Motherwell, After Tour of Plains, Says Another Ten Days of Favorable Weather Will Make it Second Largest Crop in History; Rain in Alberta Welcomed by Farmers.

Ottawa, Aug. 17.—"With another ten days without frost, the prairie region will have the second largest wheat crop in its history, and if present prices prevail the most valuable of all," said Hon. W. R. Motherwell, Federal Minister of Agriculture, who returned here to-day from the Middle West.

In Alberta and Saskatchewan, he said, coarse grains like barley, oats and flax would be below the average.

**ALBERTA WELCOMES RAIN**

Calgary, Aug. 17.—Alberta farmers are not in the least concerned over the three-day rain which has interrupted harvest work generally throughout the Province. Indeed, unless that rain is followed by frost, it is felt it will be distinct benefit, not only to late crops, but to grain being harvested now.

In some districts the straw had become so brittle from the long season of hot, dry weather that the heads broke off when touched by the binder. The rain softened that straw and saved a large percentage of the yield that would otherwise have been lost.

### SECTIONAL LOSS OF GRAIN IN MANITOBA

Winnipeg, Aug. 17.—Early this morning a repetition of Saturday's storms was experienced in Southern Manitoba. It is feared considerable damage will be done to the crops. As was the case on Saturday, the storms were of cyclonic proportions and were accompanied by hail.

No official reports of the damage caused by Saturday's and Sunday's storms have been received here.

Rain is fairly general throughout the prairie region to-day, according to reports, but is being followed by local weather bureau. It is predicted the rain will continue to-day and to-morrow, and will then be followed by cool, clear weather.

### PREMIER SUGGESTS LABOR SHARE IN RAILWAY CONTROL

King Says Rail Unions Should Have Members on Board of Directors of C.N.R.

He, Meighen and Larkin Address Locomotive Men's Meeting in Ottawa

Ottawa, Aug. 17.—The great railway labor organizations of Canada should have representation on the board of the Canadian National Railways, said Premier King in the course of an address before the Dominion Legislative Board of the Brotherhood of Locomotive Firemen and Enginemen, in session here to-day.

Mr. King emphasized the importance of joint action between the four parties of industry. If one party tried to assume complete control, the result was failure.

He referred to the pension rights of the Grand Trunk Railway employees who had participated in the 1911 strike, stating the first act of his Government was to have reinstated the men who had been deprived of their pensions.

**OTHERS SPOKE**

This morning's meeting was addressed not only by Mr. King, but also by Right Hon. Arthur Meighen, Conservative leader; Hon. P. C. Larkin, Canadian High Commissioner in London, who accompanied Mr. King and J. P. Batharie, Mayor of Ottawa.

Mr. Batharie welcomed the delegates to the city, and Mr. Larkin said a few words.

### MAN KILLED IN MOTOR SMASH AT ROYSTON

*Special to The Times*

Courtenay, Aug. 17.—A Lincoln, Finlander, working at Camp 2 of the Comox Logging Company, is held by the police at Comox, B.C., as Carl Kyne is dead as the result of an accident at Royston Saturday midnight.

The car Lincoln was driving, with Kynean as a passenger, collided with a telegraph pole at Royston corner, wrecking the car and causing the death of Kynean. An inquest is being held this afternoon at Cumberland. Lincoln was not seriously hurt.

### INJURED WORKMAN LIES UNCONSCIOUS

Vancouver, Aug. 17.—Search was continued to-day by Provincial Police for Isabella Bos and Stanley Biggent, who disappeared Sunday afternoon after they had started to paddle across Howe Sound in a canoe.

The young woman and her escort were members of the Dominion Canners' picnic party and with several others had paddled from Bowen Island across to Horseshoe Bay, four miles. Then they became separated from the other boats and have not been seen or heard from since.

### FEARED YOUNG MAN AND WOMAN WERE DROWNED

Vancouver, Aug. 17.—Search was continued to-day by Provincial Police for Isabella Bos and Stanley Biggent, who disappeared Sunday afternoon after they had started to paddle across Howe Sound in a canoe.

The young woman and her escort were members of the Dominion Canners' picnic party and with several others had paddled from Bowen Island across to Horseshoe Bay, four miles. Then they became separated from the other boats and have not been seen or heard from since.

It is feared the wash from a steamer capsized the canoe.

### RAIL CONFERENCE HELD IN EDMONTON

Effort to Arrange New Agreement For Edmonton-Dunvegan Line

Edmonton, Aug. 17.—Premier Godwin and other members of the Alberta Government are attending a conference this afternoon with Sir Henry Thornton, president of the Canadian National Railways, and George Hall, vice-president of the Canadian Pacific on the Peace River railway situation. The particular point under discussion is the question whether or not a joint operation agreement between the C.N.R. and C.P.R. is practicable.

Sir Henry Thornton, who is now western manager of the Canadian lines, said this morning the dual operation plan would be feasible, in his opinion, if both companies and the Government would so agree. So far as his own line was concerned, he said, the C.N.R. stood ready to do anything it could to relieve the situation in the Peace River area.

Grant Hall of the C.P.R. said he had come at the invitation of the Premier and without knowing of the proposed joint scheme and the details to be brought out at the conference. He was not in a position to express any opinion.

### MINERS' LEADER IN BRITAIN STATES HE WANTS REVOLUTION

A. J. Cook Declares Overture as Result of Industrial Conditions Will Come

Says He Wishes the People's Minds Freed From Curse of Criticism

London, Aug. 17.—(Canadian Press Cable)—"I realize that the power of the miners' Federation of Great Britain is a speech before an audience of Hon. James Mardon, Minister of Labor, was illustrating the fact that labor was represented in the Government by a man who had risen from the ranks and been a member and official of one of the great railway organizations.

Mr. King emphasized the importance of joint action between the four parties of industry. If one party tried to assume complete control, the result was failure.

He referred to the pension rights of the Grand Trunk Railway employees who had participated in the 1911 strike, stating the first act of his Government was to have reinstated the men who had been deprived of their pensions.

**OTHERS SPOKE**

This morning's meeting was addressed not only by Mr. King, but also by Right Hon. Arthur Meighen, Conservative leader; Hon. P. C. Larkin, Canadian High Commissioner in London, who accompanied Mr. King and J. P. Batharie, Mayor of Ottawa.

Mr. Batharie welcomed the delegates to the city, and Mr. Larkin said a few words.

(Concluded on page 2)

### CHANG TSO-LIN IS REPORTED DEAD

Peking, Aug. 17.—It is rumored here Chang Tso-lin, the Manchurian war lord, died.

### EIGHT HOUSES AND FIVE BARNs WERE BURNED

Quebec, Aug. 17.—Eight houses and five barns were destroyed in the village of St. Germain de Kourouge, a hamlet by a fire which for a time threatened the whole town. The flames raged for five hours and only Herculean efforts on the part of the population of nearby villages saved the church, presbytery and convent. The damage is estimated at \$75,000.

### TYphoon Swept Part of Japan

Osaka, Aug. 17.—A typhoon struck Osaka, Kyoto, Kobe and vicinity to-day. The amount of the damage is yet to be estimated. Several thousand houses were flooded in Osaka. The typhoon caused extensive interruptions in telegraph and telephone services, but the damage to railroads and shipping was slight.

### Delegates Greeted

Auckland, N.Z., Aug. 17.—(Canadian Press Cable via Reuter's)—The delegates from Great Britain and Canada en route to the Imperial Press Conference, which is to be held in Australia in September, arrived here to-day and were given a civic welcome.

### COUNTRY DISCUSSES POSSIBLE DATE OF GENERAL ELECTION AS CABINET MEETS IN OTTAWA

Ottawa, Aug. 17 (By Canadian Press)—A meeting of the Federal Cabinet this afternoon, to which particular significance is attached in view of the possibility of a general election late in October or early in November, was attended by Hon. P. C. Larkin, Canadian High Commissioner in London.

The question of Cabinet reorganization in the event of an election being decided upon continues to be the subject of discussion here in political circles.

Premier Dunning of Saskatchewan, whose presence in the capital last week and whose conferences with

Premier King gave rise to rumors that he had been given the opportunity of entering the Government in back on the prairies, having left here for Regina Saturday night.

The nature and outcome of Mr. King's and Mr. Dunning's conversations are not known here, as both maintained a strict policy of silence.

Any announcement in this respect will probably await the decision of the Cabinet's probable decision.

It is generally expected among politicians, however, that the session will be in the Fall and not in the Spring.

Many reasons for a Fall session undoubtedly will weigh with the Canadian in making his decision. Government departments generally favor this plan as it enables them to start the year with all the business of the session behind them. Many members also like to meet in the Fall as the approach of Christmas invariably assures an early adjournment of the session before a Spring session, on the other hand, is likely to drag on to unnecessary length.

Vancouver water problems are looming up now as a big item in the legislative farce of the next session.

It is to be hoped that the effect of the reorganization of the Province directly they are regarded as vitally important.

The civic authorities of Vancouver are anxious to have water legislation passed this Fall so that they may take pictures from the water in December. This is one of the strongest reasons for a Fall session, it is understood here.

The Premier will be in the Interior for a week visiting his constituency for Nelson to find out its needs.

He will open the new Government ferry across Kootenay Lake at Harrop before returning to the Capital next week. He plans to start for the mainland to-morrow afternoon.

### APPOINTMENTS EXPECTED

While Premier King's decision on the matter of an election may be made earlier, a feeling exists that no public statement on the matter in any event will be given out before the return of the Governor-General next month.

There is a feeling the

Government will be dissolved to-day to imminent the Fall session.

It is generally expected that the session will be in the Fall and not in the Spring.

Many reasons for a Fall session undoubtedly will weigh with the Canadian in making his decision. Government departments generally favor this plan as it enables them to start the year with all the business of the session behind them. ### DENIED BY NG RECALLED TO CITY OF OTTAWA

Quebec, Aug. 17.—A special dispatch from the Quebec Chronicle-Telegraph states Baron Byng of Vimy, Governor-General of Canada, has been recalled to the Northwest. He has been called back to Ottawa. While definite reasons are not assigned for the call, it is believed in many quarters to portend an early dissolution of Parliament.

No MESSAGE RECEIVED

Ottawa, Aug. 17.—Baron Byng, Governor-General, is to arrive back in Ottawa September 4, the date originally scheduled. It was announced here this afternoon. Nothing is known at Government House, it is intimated of his having been recalled to the capital.

The Premier will be in the Interior for a week visiting his constituency for Nelson to find out its needs.

He will open the new Government ferry across Kootenay Lake at Harrop before returning to the Capital next week. He plans to start for the mainland to-morrow afternoon.

### ICE IS DELAYING ARCTIC AVIATORS

MacMillan's Men Encounter Difficulties at New Base at Ellesmere Island

Washington, Aug. 17.—Discovery of a site for an intermediate base at Flagler Fiord, Ellesmere Island, for the MacMillan Arctic Expedition, almost resulted in damage to one of the United States navy airships. The base itself, when the aviators returned to the fiord, was in bad condition.

Two radio messages to the Navy Department here related that the NA-1 and NA-3, the navy planes, had at last found open water in Flagler Fiord and had established a base, only to find the water filled with floating ice when they sought to land.

Shooting was commenced late this morning on the 500-yard range for the Macmillan Challenge Cup, which is restricted to members of the militia.

There was a large increase in entries in the tyro match, which was shot off on the 500-yard range.

A number of near misses were registered.

Shooting was commenced late this morning on the 500-yard range for the Macmillan Challenge Cup, which is restricted to members of the militia.

The news of Sir Adam's death occurred deep in this city, where he had been a resident since 1884.

Sympathetic references were made in the city pulpits yesterday.

## U.S. GRADUATES ENJOY ROCKIES

Large Party at Banff For Frolic on Way to Convention

Banff, Alta., Aug. 17.—The Rocky Mountains are roaring with the college yell of every big university in the United States. Representatives from six-ninety American universities are spending two days here. With the Delta, Upsilon fraternity en route to their annual convention at Seattle, traveling aboard their special train of twelve cars over the Canadian Pacific. In front of the line almost of this fraternity, who are some of the United States most famous financiers, technicians and business men. Raymond T. Bunker, Harvard '28 is traveling with his father, Clarence Alfred Bunker, Harvard '98, prominent banker, who was born in the historic Bunker Hill was named.

Raymond N. Ball, controller of Rochester University, New York, is one of the United States largest railway bond holders; Samuel G. Hall, Harvard '88, is considered one of the world's foremost mathematicians; Clifford M. Jones, Harvard '98, is the famous acoustician who has planned the sounding qualities of practically every big public building, including government capitals in the United States; Canada has one representative, Bernard W. McGill '18.

Thomas C. Miller, Hamilton '85, president of the board of directors of the Delta Upsilon fraternity, New York City, declares that his visit of American university life into the Canadian Rockies will take back to the universities of the United States more knowledge of North America and what our country could teach in a decade.

The Canadian West has seldom been visited by a cleaner-cut group of people than those collegiate athletes. The big special of 190 Delta Upsilon in charge of Dewey R. Mason, Rochester, chairman of the graduate board, will arrive in Seattle, Wash., on Saturday evening, 22, while a large number of applications for quarters in the Delta Upsilon fraternity have been received. The officials state that it is practically assured that only two universities will be admitted at the convention this year. They are Dartmouth and the University of Iowa.

## PREMIER SUGGESTS LABOR SHARE IN RAILWAY CONTROL

(Continued from page 1)

### MEIGHEN'S VIEWS

Mr. Meighen told the delegates he believed in labor unions, but he did not know whether or not he favored international unions. He had not studied the international unions, but he was aware many who had were their supporters. He emphasized the fact, however, that the first duty of

every Canadian citizen was to Canada.

"Don't let your fidelity to your great organization lead you to forget that," he counseled the delegates, "that your organization has its effect on transportation. He said what was needed was a good strong 'Canada First' policy."

## ICE DELAYING ARCTIC AVIATORS

date for Cannington to deposit fog and gasoline.

It reported also that Chief Boatswain Earl Reber and Pilot Andrew Nold were on the sick list, but gave no details.

The NA-2, damaged several days ago by heavy seas, was expected by Commander Byrd to be ready for flight again in two days.

### PROMPT MEASURES

Additional details of the heroic flight made by members of the expedition to save the NA-2 after the heavy waves had opened the seams her hull were furnished by Commander MacMillan in an earlier message.

"During the heavy breeze," he said, "we noticed the NA-2, which was tied to the stern of the Bowdoin, was slowly sinking. We summoned the Bowdoin and the Peary at once. In the meantime my own crew began work and succeeded in fastening a rope around the hub of the propeller, which by that time was well under water. A double purchase was rigged around the end of the main boom which was held in place by a crew of twelve men, the bow of the plane was lifted above the surface of the water and the forward compartment dropped out.

"It was then discovered that the main compartment was also filled with water, which indicated that the plane had been secured to the stern of the Bowdoin until weather conditions were favorable for towing her to the Peary. She is now on the top deck of the Peary and being examined."

## LEADERS TO ATTEND SIR A. BECK FUNERAL

(Continued from page 1)

He had been suffering for several months and had returned some weeks ago from Baltimore, where he had undergone special treatment in one of the hospitals. For a time it was thought he would be able to resume his duties in Toronto as chairman of the Ontario Hydro-Electric Commission, but about a week ago his condition became serious and Friday night his physicians and relatives realized the end was near. Just before midnight on Saturday he lapsed into unconsciousness and died quietly.

### WENT TO SOUTH CAROLINA

Sir Adam's illness first took a serious turn last winter, when he was ordered to take rest and seek warmer climate. He went to South Carolina, but soon after entered the Johns Hopkins Hospital in Baltimore. He was given blood transfusions to stay his disease, and late in May he returned home. Since then he gradually sank, though until quite recently he continued the direction of the vast hydro-electric works and other affairs in which he was interested, including the Queen Alexandra Sanitorium. His last public appearance was six weeks ago, when he addressed the London Board of Trade, and urged the London Board to make an urgent application to the Ontario government for the purchase of part of the Ontario hospital grounds as a site for the East London collegiate.

At the death bed were his daughter, Mrs. Strathern Hay, and her husband, of Toronto; his secretary, Miss Stiles, of London; and E. A. Gahy, chief engineer of the Ontario Hydro-Electric Commission.

Sir Adam, chairman of the Ontario Hydro-Electric power Commission, popularly known in Ontario as "the man of power," was a native son of Ontario. He was born June 20, 1857, at Baden, which was founded by his father. He attended the Western University, London, Ont., from which he graduated and which later conferred upon him the degree of LL.B.

Sir Adam, who was then simply Mr. Beck, in 1875 engaged in the iron foundry and milling business with his father, the late Jacob B. Beck, at Baden. In 1880 he removed to Galt, Ont., where he commenced the manufacture of boxes and the business of veneering thin lumber. He continued in that business for four years, then to London, Ont. There he built an extensive plant and established branches at Montreal, Toronto and Hamilton.

He was first elected to the Legislature for London in 1902, and was re-elected for each succeeding term until the provincial general election in 1919, when he was defeated by H. A. Stevenson, Labor representative. Sir Adam was again elected to the Ontario Legislature as member for London in the general election of 1923, and was appointed a Minister without portfolio in the Government of Hon. G. Howard Ferguson.

### WAS MAYOR OF LONDON

Sir Adam had very wide interests and was one of the best-known men in his native province. He was Mayor of London from 1902 to 1904. He was president of the Union of Municipalities in 1904, and held office in various local associations, both far and near, for his interest in those neighborly houses. Sir Adam was a promoter of the Canadian Jockey Club and was master of the London Hunt Club. He was knighted in 1914.

Lady Beck, to whom he was married in 1898, died on October 17, 1911. During the Great War Sir Adam Beck rendered valuable service to the cause of the Allies as director of recruitment. He personally supervised the purchase of army horses for the Canadian forces.

# VANCOUVER ISLAND NEWS

## GULF ISLAND NEWS

Special to The Times

Mayne Island, Aug. 17.—A very enjoyable concert was given in the Mayne Island Hall by Mr. Drury Price, Mrs. C. Warr and Miss Ida New. All of Victoria.

Captain and Mrs. Hougate gave a jolly birthday party on the beach.

Mr. and Mrs. O'Brian are staying with Mrs. Blair.

Recent visitors at Grandview Lodge were Miss Bennett, Mr. and Mrs. Schroeder, Miss G. May, Mr. E. Day, Mr. J. Goldberg, Mr. and Miss Everill.

Miss M. O'Brian is staying with Mrs. Blair for a few days.

SATURNA ISLAND

Mr. Defty has gone to England for a few months.

Master Graeme Macfadyen, who has been spending a holiday on Orcas Island, has returned home.

Mr. H. Loosemore is spending a holiday here.

Mr. and Mrs. Gerald Payne have

gone for a trip on their yacht the *Saturna*.

Mr. A. Stretton is staying with Major and Mrs. Pender at their camp.

Mrs. Higgs has gone to Victoria for a holiday.

Mrs. Romans has returned to Vancouver after a holiday spent here.

Major Rawson and son have returned to Victoria after spending two weeks with the Rev. H. Payne.

The friends of Bobbie Loosemore will be sorry to hear he has broken a bone in his arm by falling off a float into shallow water.

GALIANO ISLAND

An enjoyable concert was given in the school house by Mr. Drury Price, Mrs. C. Warr and Miss Ida New.

Mr. and Mrs. F. Thorley and daughter of Santa Barbara are staying with Mrs. New.

The following are staying at the Hotel Inn: Miss W. Morton of England, Mrs. Bray of Victoria, Mrs. and Miss Loggin and Mr. Griffiths, Victoria.

Mr. Hawthorn has been spending a few days in Victoria.

Recent visitors at Gossip are Mrs. Macdonald, Mr. and Mrs. Templeton of Essondale, Mr. and Mrs. and Miss Meredith, Mrs. Moffat and family of Burnaby Lake.

## Farewell Party to Rev. and Mrs. Comley

Special to The Times

Metchosin, Aug. 17.—A very enjoyable concert and dance was given at the Metchosin hall on Friday August 14 as a farewell party to the Rev. and Mrs. Comley on the eve of their departure to take charge of the new rectory at Alert Bay. In the concert programme songs were rendered by Mrs. F. A. Pearce; Mrs. W. L. Whiteney-Griffiths; Misses A. D. Ellwood, H. G. Pierce; and recitations by Miss L. Maze, which were very much appreciated by an audience that filled the hall to capacity. At the conclusion of the concert Mr. H. G. Pierce and the churchwardens, Messrs. Goss and Franklin, a few well-chosen words in the form of a little oration on behalf of the parishioners presented Mr. and Mrs. Comley with a beautifully illuminated address—the work of Mr. J. S. McMillan of Victoria. At the same time Mrs. Osborne presented Mrs. Comley with a lovely bouquet of pink asters and gladioli from the church committee. The ladies then served delightful refreshments and dancing continued to a late hour.

## STORM BEAT DOWN GRAIN IN MANITOBA

Farmers in Southern Section of Province Suffered Loss

Winnipeg, Aug. 17.—Great damage to crops in a large section of the Southern Manitoba district resulted from terrific hail, wind and rain storms Saturday night.

Farmers in the vicinity of Treherne, Morden, Morden, Roland, Holland and Somerset were the chief losers. Many reported an eighty per cent. loss. Standing crops where the storm hit were beaten into the ground, while the grain was threshed out of stocks where cutting had been completed.

### EIGHTY PER CENT LOSS

Farmers in the district between Rathwell, through the Tiger Hills to Baldur and south of Roland to a point beyond Brussels, estimated their loss at eighty per cent. The crop, which was standing, was reported completely hailed out, and what wheat and rye was standing in stock was badly battered.

Hailstones broke windows in the Brussels district.

Crops along two wide strips in the vicinity of Manitou were laid low. Four farmers reported a 100 per cent. loss, while many others estimated their damage as extremely heavy. The hail swept a strip one mile wide and seven miles long.

The following is a summary of experiments, a new system of wireless telephony has been installed on trains on the Hamburg-Berlin railroad, which enables traveling passengers to call or be called from any exchange by any subscriber.

The invention will be introduced on all main sections of the government railways, and it is claimed passengers will be able to communicate from one train to another.

northwest of the town, southwest of the town, damage in another strip swept was less severe, being estimated at twenty-five per cent.

### WORST OF YEAR

The worst storm of the year swept the region and vicinity. Two farms had been reported as completely wiped out, and a number of others suffered damage. Harvesting was to have commenced to-day.

Morden reported an area two miles wide and nine miles long northwest of the town haled as haled out. A large proportion of the wheat crop in the district was stood and much of it was damaged severely.

Had the crop been standing, the damage would have been greater.

Torrential rain and a cyclonic wind damaged standing crops of oats, barley and rye.

Six sections southwest of Somerset were badly beaten, crops being damaged forty per cent.

Seven farmers in the Treherne district reported an eighty per cent. loss, while others reported considerable damage.

## Wireless Telephones On German Trains

Hamburg, Aug. 17.—After six years of experiments, a new system of

wireless telephony has been installed on trains on the Hamburg-Berlin railroad, which enables traveling passengers to call or be called from any exchange by any subscriber.

The invention will be introduced on all main sections of the government railways, and it is claimed passengers will be able to communicate from one train to another.

## EMPLOYEES OF U.S. POSTAL SERVICE ARE DISSATISFIED

Retirement Act Will Be Discussed During "Postal Week," Starting Aug. 23

Cleveland, Aug. 17.—The present retirement act for postal employees will be the chief topic of speakers at the meetings of eight organizations that will celebrate "Postal Week" here Aug. 23 to 25.

At present clerks and carriers receive at forty-five and supervisors at seventy, and are paid \$60 a month, providing they have spent thirty years in the service. If they have served less than thirty years the pay is pro rata.

Local postal workers say the provisions of the act are "utterly inadequate to meet reasonable service and employment needs. The annuity granted is so small that employees appear to accept it only under pressure and the age of retirement is fixed so high as to practically defeat the purpose for which the law was intended."

The discussions on the retirement act are expected to take place at the meetings of the national association of postal supervisors, the united national association of post office clerks and the national rural letter carriers association.

Other subjects to be discussed during the week include the "Effect of the New Postal Rates" and the "Expansion of the Air Mail Service."

More than 6,000 postal officials and employees are expected to attend the conventions. In addition to the organizations mentioned there will be the national association of postal motor vehicle employees and the Ohio postmasters' association. There will also be a general conference of post office inspectors.

Congressman Theodore E. Burton, who now act as chairman of the general meeting, United States Senator George H. Moses of New Hampshire, chairman of the Senate committee on post office and post roads; Congressman Charles A. Mooney of Ohio, Congressman Clyde Kelly of Pennsylvania, Senator Simon D. Fess of Ohio, Senator Frank B. Willis of Ohio, Congressman Calvin D. Paige of Massachusetts, John H. Bartlett, first assistant postmaster-general and Postmaster-General Harry W. New are on the programme for addresses.

## INDIANS RETURN FROM OLD COUNTRY

Three B.C. Leaders Disappointed They Had no Interview With King

King concerning the tenure of their lands and the trapping of game. They claimed certain rights had been taken away from them which were guaranteed to them by the British Government of many years ago.

## ONTARIO HYDRO OFFICIAL NAMED

Toronto, Aug. 17.—Premier G. Howard Ferguson announced to-day that F. A. Gaby, chief engineer of the Hydro-Electric Commission of Ottawa, had been given temporary charge of the Ontario Hydro-Electric Commission.

It was stated that the business of the Ontario Hydro-Electric Commission might not be delayed or hindered through the death of Sir Adam Beck. The appointment would continue to be effective, the Premier said, until a successor to Sir Adam had been selected.

Two commissioners are necessary to carry on the work. The death of Sir Adam left A. J. Cook as the sole member of the board, the full strength of which had been three.

No appointment has yet been made to fill the vacancy caused by George Raeburn's retirement from the commission two years ago.

The matter of appointment of a permanent commissioner will likely be taken up by the Ontario Government some time this week.

# Don't Be Misled

## No ordinary "olive and palm" soap does what Palmolive does

OLIVE and palm oils have been for ages the world's supreme cosmetics. Cleopatra used them. Roman beauties used them. Then in castile soap—real castile—they reached enormous fame. But men never knew how to make those oils supremely effective until Palmolive Soap came out.

Consider the result. Palmolive has shown millions the way to better complexions. Fresh, clear skins are so common now that anything else is conspicuous. Palmolive has become, by proved results, the leading toilet soap of the world.

It is made in five countries, to supply the world-wide demand. It is made in France—the home of fine cosmetics—because French women prize it so.

Yet the price is 10 cents—as low as common soaps—with artificial color—often over-fatted—which claim "olive and palm oil" ingredients. Some people are misled into classing such soaps with Palmolive.

Palmolive Soap is a unique creation, based on 60 years of soap study. It brings you olive and palm oil effects in ways never known before. Were that not so, it would never have reached the pinnacle place of today.

There are soaps that fairly compare with it—two that we know. But they cost you 25 cents. Cheap "olive and palm" soaps will sadly disappoint, if you seek for Palmolive results.

Note the *unnatural* "too green" color of Palmolive imitators. What does that suggest? Men don't paint nature to improve it.

Olive and palm oils—nothing else—give Palmolive its delicate, *natural* color. Olive and palm oils—*no other fats whatsoever*—are used in Palmolive.

No "super-fatting," no "super-anything"—the only secret to Palmolive is its blending. And that is judged one of the world's priceless beauty secrets.

If you seek a mere cleanser, ordinary soap will clean. But the Palmolive appeal is to women who seek beauty and skin health. Don't think that such results can come from ordinary "olive and palm" soap.

Probably nothing in all history has done so much for beauty as Palmolive Soap. Nothing else is doing so much today.

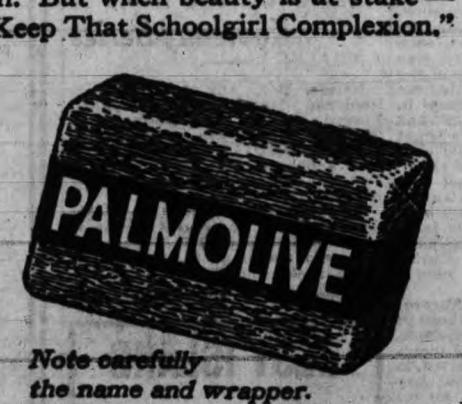

Wash, launder, cleanse with any soap you wish. But when beauty is at stake—take care. Use Palmolive, nature's formula to "Keep That Schoolgirl Complexion."

### IN PARIS

French women are discarding French soaps for Palmolive

Palmolive is today one of the two greatest selling toilet soaps in France. Parisian beauties are happy to pay almost twice as much for a cake of Palmolive as Canadian women pay. And, in many cases, three times as much as for their own French soaps. Remember this when tempted by costly French soaps, or by "French" claims for soaps.

(MADE IN CANADA)

Note carefully the name and wrapper. Palmolive is never sold unwrapped.

## MUSTAPHA KEMAL NOT TO MARRY AGAIN

Constantinople, Aug. 17.—Mustapha Kemal Pasha, President of the Turkish republic, who has divorced his wife, is reported to have said he does not contemplate another marriage. He has allowed his divorced wife £5,000 for the repudiation of their marriage.

Chief-Chillischista made a long speech, delivered with emphasis. It lasted several minutes and was translated by Mrs. Williams. It was to the effect that Chillischista was going away downcast in heart because his long voyage had proved unsuccessful.

"With that parting salutation," adds The Evening Standard, "these three romantic figures disappeared beyond the door of that most matter-of-fact institution, the third-class compartment of a railway train."

The Turkish pound at par is worth \$4.35.

## AN EMINENT CANADIAN

## IN THE DEATH OF SIR ADAM BECK

Canada has lost a distinguished son, whose fine public service in his native province won for him a national reputation. To his vision, energy and organizing ability is due, to a large extent, the development of the hydro-electric power system of Ontario, over which he presided for the last nineteen years. He possessed in an unusual degree the confidence of the people of his province without regard to political affiliations, and although he never assumed the leadership of his party he was easily one of the foremost figures in the public life of Ontario for the last twenty-five years. If he had aspired to eminence in wider fields he could have attained it, for very few Canadian public men combined such impressive qualities of mind and person as he. Canadian citizenship is notably the loser by his death.

## HOME PRODUCTS

LET US ONCE AGAIN direct attention to the products of this community through the comprehensive display assembled at the Provincial Fall Fair which is now in progress at the Willows. Every citizen should study this exhibit and get a clear understanding of its significance.

Every year it is necessary for wholesalers and retailers in Victoria to import large quantities of farm products and manufactured articles because the public of this community demands them. Not all of these are produced in Vancouver Island. But the "home products" stalls at the Willows will no doubt be a revelation to thousands of our citizens. Here may be seen the wide range of local production—the produce of farm and factory—and the greater part of it equals the quality of the imported article and sells at a similar and sometimes a cheaper price.

Those who desire to contribute towards the expansion of this district should make up their minds to use more of these local products and less of the foreign articles. By so doing they will be playing an important part in the economic progress of their own community. For the greater the demand for these things, the larger the payrolls will grow. Victoria requires these payrolls and the support of home products is one way to obtain them.

## CANADA MUST BE MORE RAPIDLY DEVELOPED

DEFENDERS OF SPECIAL privilege—the high protectionist element which continually ignores the average consumer—always overlook the fact that to increase production in the basic industries of the country it is essentially of first importance to provide, as far as possible, conditions that will insure a satisfactory return for effort and money expended. The more favorable this prospect shall be the greater the stimulus to increased production. The market price of the goods produced is obviously a vital concern; but it is the amount which the producer has left in the shape of net returns that must be considered of importance. Dr. Tolmie warmly supports Mr. Meighen's demand for a higher tariff. That is to say, he would compel the settler, of whom he admits this country is in urgent need, to pay more for the implements which he requires on the farm, in the forest, and in the mine, and so reduce his profit and prospects.

Canada has no less than 300,000,000 acres of arable land, of which only 57,852,000 acres were devoted to field crops last year. This country produces the best quality of wheat and its acres have the reputation for yielding greater volume than any other important wheat-producing country.

Recent mining developments in British Columbia have served to draw attention to the prospect of increased mineral production here and in other parts of the Dominion. Our coal deposits are second only to those of the United States and

represent about one-sixth of the world's supply. Gold and silver production finds us at third place among the producing nations of the world, while there are signs which suggest that before many years have passed we shall outstrip our neighbor to the South in the production of gold, and then begin to rival South Africa. Nor must it be forgotten that Canada has enormous water powers available for the facilitation of industrial enterprise.

The policies of the King Government must promote national production because they make production cheaper and recognize the consumer's capacity to buy. The policies which Mr. Meighen advocates limit production by making it more expensive without any regard for the consumer's purse. Free trade by lower tariffs means expansion. Protection by higher tariffs means restriction. One permits the unrestricted trading between producer and consumer upon which sound economic structures are built. The other builds up a trading principle under which the majority is penalized in order that the minority may accumulate unfair advantages. Through this condition, in an undeveloped country like Canada, virgin acres which should be allowed to yield up their wealth are neglected because their development is not economically profitable.

## IT PAID IN QUEBEC

NEWS FROM QUEBEC indicates that there was a great reduction in the number of forest fires in that Province last year over the corresponding season of the year before. The principal means of detection in operation there are the watch towers, the use of wireless, and aeroplane patrol.

Comparison of conditions in Quebec and British Columbia may furnish nothing in the nature of a commentary upon our own problem. This year has been a disastrous one for this Province because a long and dry Summer seems to have defied the efforts of our ground service to grapple with it as successfully as more up-to-date methods would have made possible.

British Columbia obviously requires a substantial supply of aeroplanes for the protection of its timber resources. This natural wealth is valuable enough to merit a more effective system than the Legislature has so far permitted the Forest Branch. Special attention should be given to the whole subject at the next session of the House.

## THE "BLACKSHIRT" THREAT

IT WAS TO BE EXPECTED that the British Fascisti would take a hand in what its members no doubt consider to be their coming chance to emulate their Italian colleagues. Mr. A. J. Cook, the miners' secretary, has received a warning from the "blackshirts" to the effect that they are ready for him and his dupes—"swift, sudden, and sure." They have no doubt persuaded themselves that this trades union official and one or two more of his radical friends will be able to stage a revolution when they imagine the time to be ready. But the Old Country's embryo Mussolini's are not at all complimentary to the intelligence of the great unorganized mass of British workers when they wave their smocks in the face of an extremist and think they alone can stave off the evil day.

Great Britain because the majority are still able to exert enough influence to save them from the sort of inconvenience which a handful of extremists would like to produce in satisfaction of their own peculiar ideas about the social structure. Nor is the blackshirt threat to Mr. Cook a compliment to the Government in office. But it is a suggestion to the general public that if this organization be allowed to challenge the operation of British institutions which the whole world respects, under its mistaken belief that its ideas are superior to democratic practice, the conditions which would follow would be far more serious than anything Mr. Cook and his cohorts could produce. Fascism and Bolshevism are very similar in practice.

## HALF A STORY

THE MORNING PAPER points out that statistics show an exodus of 125,000 Canadians to the United States during the year ending last June. It conveniently omits all reference to the fact that this is 75,000 less than crossed the boundary into the public in the previous year. It does not mention that many of these were not lost to this country for very long. It chooses to forget for its own purpose that former Canadians have been coming back into Canada

from the United States at the rate of nearly six thousand a month for the last twelve months. It is deceiving none but itself when it suggests that the Canadian exodus, either at its peak or in any other state, has anything material to do with the policies of the King Government. But it could note what Mr. Dickie, Conservative member for the Federal riding of Nanaimo, said about this very question recently. His considered judgment was that it was only natural the United States should attract people from this country in those immediate post-war years when our neighbor's vast wealth was producing much activity over the line. But he said "they are coming back; they hear Canada calling them." Mr. Dickie at least preferred fact to fiction in this case.

## WORDS OF WISE MEN

Men would live exceedingly quiet if those two words "quiet" and "thine" were taken away. —Anaxagoras.

Merit is sure to rise. —Hans Andersen.

"Tis the mind that makes the body rich. —Shakespeare.

It is good to see in the major tunes of others what we should avoid. —Syrus.

Modesty cannot be taught; it may be born. —Syrus.

If you make money your god, 'twill plague you like a devil. —Fielding.

Believe if thou wilt that mountains change their places, but believe not that men change their positions. —Mahomet.

For all may have, if they dare, choose, a glorious life or grave. —Herbert.

We have no right to feel angry because other people do not like us. —Boyd.

There's beggary in the love that can be reckoned. —Shakespeare.

Love is not love, which alters when it alteration undergoes. —Which alters when it alteration undergoes.

Or bends with the remover, to remove. —Oh, no! It is an ever-fixed mark That looks on tempests and is never shaken. —Shakespeare.

Science is better than unmeaning words. —Pythagoras.

Few love to hear the sins they love to act. —Shakespeare.

## WHO'S WHO IN HISTORY TO-DAY

## ROBERT BLAKE

Famous English admiral, died at sea on August 17, 1857. He was made commander of the fleet and later warden of the Five Ports.

He commanded against the Dutch in the naval war with Holland, and afterwards defeated the Spanish fleet.

## MADAME DACIER

(Anne Teneguy-Lefevre), French classical scholar, died on August 17, 1720. She translated the Iliad, the Odyssey, and other Greek and Latin classics.

## DAVID CROCKETT

American pioneer, hunter and politician, was born on August 17, 1766. He was a member of Congress from Tennessee for several years, and served in the Texan war, being killed at the Alamo at San Antonio, Texas.

FREDERICKA BREMER

Noted Swedish novelist, was born on August 17, 1861. She was a prolific writer, her works also including several books of travel. Among her novels are "The Home," "Sketches of Every-day Life" and "The Neighbors."

H. B. BROWNING

## THEOSOPHY

To the Editor:—In your excellent issue of The Times on Saturday last there was a portrait of Hindu, J. Krishnamurti, who is said to be "hailed by Theosophists throughout the world as the reincarnation of Jesus Christ."

Will you kindly allow me to disabuse the minds of your readers that this belief is general among Theosophists? Some few may hold to this idea, promulgated by certain self-styled "Theosophical leaders." However, no such belief is held by any true student of the Theosophical philosophy and teaching as given in the books in modern times by Madame H. P. Blavatsky. In the year 1891, there is no doubt of her death in England, nevertheless, no reference is made on the beliefs of such a student; he may, if he please, believe the moon is made of green cheese or that Mahomet will reincarnate and conquer the whole world.

The student of the original statement of Theosophy, as said by H. P. Blavatsky, and to be found in the original editions of her works, such as "The Secret Doctrine," "The Key to Theosophy" and "The Voice of the Silence," soon learns that the universe, and all its little portion of it, is governed by law and that the lesser aspects of this Great One Law operate orderly and can readily be traced as cause and effect. Certain things can come about only in the fullness of time, even as the clock, the regular and constant hours, bring in more. Hence there is no ground for this irrational belief in the reincarnation of Jesus the Christ, especially when heralded in such a spectacular way.

The only obligation on a Theosophist is belief in the Brotherhood of Man, without distinction as to race, color, sex, or color, and more.

Theosophy is not sectarian in any way; it is not a religion but may be regarded as the mother of all religions; Jew and Gentile, Christian and Buddhist, the world and others may alike find fellowship, comfort and solace under its wing. Thanking you for correcting this false impression on behalf of many local Theosophists and doubtless many others in the broad field of the influence of The Times.

WILLIAM H. GRIFFITHS,

President, Victoria Theosophical Society, Independent.

101 Union Bank Building, Aug. 17.

## Other People's Views

Letters addressed to the Editor and intended for publication must be short and to the point. The longer an article, the shorter its chance of insertion. All communications must bear the name and address of the writer, but the editor reserves the right to withhold it. The publication or rejection of articles is a matter entirely at the discretion of the editor. Submission of an article is taken to imply that the author has submitted it to the Editor.

A TREAT IN STORE

To the Editors:—I have seen in your paper of recent date an announcement that had much surprised and pleased me, to the effect that the Ladies' Musical Club is to have a series of concerts here this Winter and at very reasonable prices. Having been accustomed during the many years I have lived in Victoria to paying from two and one-half to three and a half dollars for a single performance, I confess an instant distaste, but the less price offered the same seats at less than two dollars each.

It was my good fortune to hear Germaine Schnitter play when she was in Victoria some months ago, and I would willingly pay the price of a season ticket for her concert alone.

The other artists are so well known that they need no recommendation from one who is in a position to know that they rank among the best in their respective roles.

In a time when everything is much higher in price than in former years, it is really quite remarkable that this club can make such a splendid offer to the people of Victoria.

I think the ladies who control the affairs of the club are to be congratulated upon their enterprise in bringing such artists as Zimbalist and Anna Case to Victoria and, in wishing them every success, I feel quite sure that I am speaking for a great many others who are like myself.

In the second division, while it is

five of these were accumulated by the Celts in their game against the Hibernians.

Home clubs obtained most of the decisions

and of these went to definite results,

and of the ten played in the senior string, seven were decisive, while three resulted in draws.

The league champions, the Rangers, had little difficulty in disposing of the Celts in the first round, three goals being scored against the home team, while the runners-up, Aldredians, were forced to accept a draw from Paisley-St. Mirren. The teams from the Capital City fared badly; Hibernalians were soundly trounced by Celts in the Heart of Midlothian divided Falkirk.

The New Freely-Lathering Cuticura Shaving Stick

For Tender Faces

EMOLIANT MEDICINAL ANTISEPTIC

GORGIE FIRE

To the Editors:—It may be news to some to know that the recent fire at the Gorge has had bad effects in itself. While viewing the ruins on Friday, I was compelled to overhear a conversation between two lads of what they secured the previous evening, and one remarked that he got all kinds of clothes and the other that he got a dandy rifle.

This led me to make inquiries, and I learn that wholesale pilfering took place on the night of the fire. Not

only were rifles, cigarettes, boxes of

chocolates and other stores, but

the few things that were placed

by onlookers. These included the

personal property, such as clothes,

music, costumes, etc., of the artists

that were appearing at the

stage building as that was threatened

with the fire. The steamer, the

large gondola, and real hardship

of the concert girls, as that was

all they possessed, and was their

means of obtaining a living. Now

they are left with absolutely nothing,

and have lost not only their belongings, but their employment and from securing any employment.

It is a most despicable thing to do in cases of fire, and is a case for police investigation. It is likely

now that the police have been informed, and are making inquiries.

I was told that people were seen

carrying away things away in carts and one girl was found on the steamer with the contents of her pockets.

It is a direct loss to many connected with it as the place was only partially covered by insurance.

This aggravated by the stealing of personal effects is to say the least, bad business. If those connected with the steamer will return the belongings of the girls to Mrs. Fielding of the Gorge, it would prove to be a godsend to the concert girls, as some of them are absolutely stranded, as they lost their money as well as their clothes.

DAVID SPENCER LIMITED

## LIARD RIVER INDIANS GO NORTH FOR MURDER TRIAL AT PRINCE RUPERT

Death of Boy Wastetia Moccasin From Exposure Led to Arrest of Five Indians, Members of Nomadic Tribe in Far North; Sergeant Bob Owens and Escort Take Prisoners From Oakalla This Evening en Route for North.

One of the most unusual cases to come before B. C. criminal courts, the Indian "Witchcraft" murder at Thirty Mile Bar, Liard River, will open at Prince Rupert when the Assizes reconvene there this week.

Leaving from Vancouver this evening Sergeant Robert Owens of the Provincial police will be in charge of an escort taking five Indians from Oakalla to the north on board the Ss. Prince Rupert.

The party consists of Big Alex, Faustine Pena, Jimmy Loot, Dan Loot and Clem Loot, four Liard River Indians, and Edie, an Indian woman. The prisoners are held for trial in connection with the death of the boy Wastetia Moccasin, or Atel, whose body was found tied to a tree in the woods near where he had been left to die.

Current in the tribe is a nomadic one that knows no fixed settlement, it is asserted, in the tale that the boy was bewitched. The unusual case was investigated by Captain T. V. Sandy-Wunsch, of the Royal Canadian Mounted Police, who went in to the Liard River country with a posse and brought out the five accused now held for trial.

The initial hearing was to have gone before the Prince Rupert Assizes in June of this year, but was stood over to a special sitting called for this month. The murder is said to have taken place on April 1, 1922. At the usual proceedings an Indian woman named Lucy, wanted as a witness, could not be brought out at that time. Lucy and an Indian interpreter are now at Prince Rupert awaiting the hearing of the issue.

## BORDEN ADVOCATES CHANGES IN EMPIRE

Ex-Premier of Canada Ad-dresses Institute of Politics at Williamstown, Mass.

Would Have Dominions Increase Share in Shaping Foreign Policy

Williamstown, Mass., Aug. 17.—The problem of giving the Dominions of the British Empire an adequate voice in the determination of its foreign policy is grave, but not insoluble. Sir Robert Borden, former Premier of Canada, asserted at a session

of the International Institute of the Dominions here to-day in an address on "The Dominions and Foreign Relations."

He gave constructive suggestions for making effective the principle of equal nationhood, complete autonomy and a voice in the Empire's policy, advocating the following measures:

That the High Commissioner of the Dominions in London be made members of their own Governments and receive the status of British Privy Councillors to enable them to attend Cabinet meetings in London when summoned.

### MEETINGS IN LONDON

That the League of Nations representatives of the Dominions meet before each annual session of the League Assembly to discuss the common problems as applied to the Dominions and that the Canadian and other Empire delegates to the Assembly should spend at least a week in London to discuss matters on the Assembly programme and also visit in questions touching foreign relations.

That each Dominion send strong representatives to the League Assembly.

That each Dominion develop and strengthen its department of external relations.

### Three Were Drowned In St. Lawrence

Montreal, Aug. 17.—Audriene Nadron, seventeen, Florence Chamberlain, fifteen, and Romeo Puelot, twenty-one, lost their lives while bathing in the St. Lawrence River yesterday.

You may depend upon it that there are good hearts to serve men in palaces as in cottages.

Owen.

## Her Wonderful Teeth

Remove the dingy film that's clouding yours and you'll be surprised that your teeth are just as white and charming as any one's—make this unique test.

HERE is a simple test that proves the truth that most of us have pretty teeth without ever knowing we have, or ever realizing it.

This is the reason:

Run your tongue across your teeth and you will feel a film. A film which absorbs discolourations and hides the natural color of your teeth.

Remove it and your teeth take on a new beauty. Maybe you have really beautiful teeth without tartar, are the chief cause of pyorrhea.

So, besides loss of tooth beauty, film is a serious danger to healthy teeth. You must remove

Gertrude Ederle To Make Her Attempt To-morrow Morning

She Will Enter Water at 7.45 a.m.; Fully Confident of Crossing Channel

Cape Gris Nez, France, Aug. 17.—Gertrude Ederle, yesterday morning, completed her sea training for the swim she will make to swim the English Channel, with an hour's swim at full speed. She will not enter the water again until she slips off the huge rock at the extreme western point of Cape Gris Nez Tuesday morning and strikes out for Dover.

She succeeds she will be the first woman swimmer to conquer this arm of the Atlantic, with its currents and racing tides.

Miss Ederle's plans to strike off at 7.45 a.m. She will be joined at the Laramine bearing a party of other famous swimmers, among them William Harrison of Argentina, who has failed in four channel attempts; Mile Jane Sion of France, twice unsuccessful; Tom Burgess of England who negotiated the fear in 1911 and her own trainer, Miss Wolfe.

## BAND WILL BE THERE

To cheer her on her way the tug band will also carry a four-piece jazz band, the upon the advice of Miss Sion.

Ederle planned to take a short walk this morning. She is brimming of confidence and says she is in the most perfect physical condition she has ever attained.

Her confidence is shared by her trainer, who says he really has been allowed very little to say as to her training methods. He was on the verge of leaving for England yesterday, but friends persuaded him to see it through. One of his old friends has been to Miss Ederle's refusal to submit to management by male hands, which he declares vitally necessary to harden her muscles properly.

## ANOTHER DIFFICULTY

Sharks have made their appearance in the English Channel within the last few days, adding another hazard to the already countless difficulties of the swim. Two man-eating sharks, weighing over 1,000 lbs. in length were caught by fishermen seven miles off Boulogne last night. They were brought to Boulogne and exhibited.

Precautions have been taken to keep the news of the sharks a secret from Miss Ederle when she arrives to meet her at 6 o'clock this night for her last rest before entering the water.

During one of his attempts to swim the channel Jabez Wolfe, Miss Ederle's trainer, was forced to leave the water because of the attacks of sharks.

Fishermen here say that the continued hot weather which has brought the temperature of the water to a higher point than usual, is responsible for the presence of the man-eaters in the channel.

## WHO IS YOUR SKINNY FRIEND, ETHEL?

Tell him to take McCoy's Cod Liver Extract Tablets for a couple of months and get enough good healthy flesh on his bones to look like a real man.

Tell him, it's the only way to take those gaudy little hollows from his cheeks and neck.

Tell him that thousands of thin, puny, peaked, scrawny men all over America have improved their physical health and appearance and blessed the day they first heard of these wonderful sugar coated tablets so full of weight producing vitamins.

Ask for McCoy's Cod Liver Extract Tablets. Vancouver Drug Company, Macmillan Drug Company, Owl Drug Company and every druggist worthy of the name—sell them—40 tablets—50 cents. Any thin man or woman can put on five pounds of healthy flesh in 30 days or your druggist will willingly refund the purchase price.

One woman put on 15 pounds in six weeks. Children grow robust and strong—feeble old people feel younger in a few weeks. (Advt.)

## BEAUTIFUL GIRLS OF ALL NATIONS GATHERED FOR GOLDWYN PRODUCTION

"His Supreme Moment," featuring Blanche Sweet and Ronald Colman, offered this week at the Capitol Theatre; film shows Harem Scene in Colors.

"Loves of All Nations" is what Director George Fitzmaurice termed the beauty of beauties who decorate the harem sequence which, reproduced in full natural color, serves as the opening chapter for the Samuel Goldwyn production, "His Supreme Moment." Proceeding on the knowledge that Oriental potentates who went in for harem collections picked representative beauties of every race and clime, Fitzmaurice combed Hollywood for the perfect beauty from every general subdivision of the human family. He succeeded in assembling a group of a dozen girls who he believes are perfect types of the Latin, Slav, Norse, Teutonic, Anglo-Saxon, Celtic, Mongolian and other racial groups.

Little French Girl at the Dominion This Week

### AT THE THEATRES

Capitol—"His Supreme Moment."  
Columbia—"Dante's Inferno."  
Dominion—"The Little French Girl."  
Coliseum—"Katinka."  
Playhouse—"Potash and Perlmutter."

It is possessed of the same essential dignity and poise. In the roles of the North, auburn-haired colleens, raven-tressed and blue-eyed Latin beauties, and olive-skinned Mongolian girls in characteristic postures, made more beautiful by the use of colors which distinguishes their various races.

By photographing in natural colors the episode in which these beauties appear, he has been able to present fair-haired, blue-eyed daughters of the North, auburn-haired colleens, raven-tressed and blue-eyed Latin beauties, and olive-skinned Mongolian girls in characteristic postures, made more beautiful by the use of colors which distinguishes their various races.

The harem episode is a stage play which serves as an introduction for Blanche Sweet, who is featured with Ronald Colman in this Goldwyn-Fitzmaurice production which First National is releasing.

No reports of temperamental clashes are recorded.

The picture will be shown at the Capitol Theatre all this week.

**Dante's Inferno**  
Picture of Scenic Splendor at Columbia

Dramatic Spectacle Gives Example of the Amazing Latitude of Films

Regardless of one's beliefs about the hereafter, the William Fox screen version of "Dante's Inferno" is bound to appeal as a dramatic spectacle and an example of the amazing latitude of the film.

The picture is showing at the Coliseum. This is a classic made the background for a modern setting. For massive scenery and sheer spectacular magnificence, the picture stands second to none. In addition, the story is interesting and the acting is well done.

Henry Otto, the director with a flair for spectacular pictures, was behind the megaphone while the Inferno was being made. His directing hand shows in the awe-inspiring scenes of Hades, with its vast throngs of tortured souls; again in the effective make-up of the characters and still more in the transitions continuity which shifts from one grotesque chamber of Hell to another.

Lawson Butt as Dante is peculiarly well cast, and Howard Gaye as Vir-

gil is possessed of the same essential dignity and poise. In the roles of the North, auburn-haired colleens, raven-tressed and blue-eyed Latin beauties, and olive-skinned Mongolian girls in characteristic postures, made more beautiful by the use of colors which distinguishes their various races.

## MARY BRIAN IN TITLE ROLE OF "LITTLE FRENCH GIRL" NOW AT DOMINION

"Wendy" of "Peter Pan" Featured With Alice Joyce, Neil Hamilton and Esther Ralston in Newest Paramount Picture.

"The Little French Girl," a Paramount picturization of the sensationally successful novel of the same name by Anne Douglas Sedgwick, comes to the Dominion Theatre to-day for a six days' run. Alice Joyce, Neil Hamilton, Mary Brian and Esther Ralston are featured in the leading roles of the production, directed by Herbert Brenon, who made "Peter Pan" and written for the screen by John Russell, author of "Where the Pavement Ends." Mary Brian, who played Wendy in the Barrie classic, has the title role in "The Little French Girl." As Alix Vézier, she invades a fashionable English home with the idea of making a good marriage—marriage which her mother's indiscretions have made impossible for her in France.

Alice Joyce plays Madame Vézier, who, as Alix says, "cannot help it if she is the screen." Anthony Jowitt, new to the screen, is Madame's latest flame. An English army officer who neglects his fiance (Esther Ralston) to spend his leaves with the little French girl's mother, Neil Hamilton is Owen Bradley's (Jowitt) younger brother, who also loves Miss Ralston, playing Toppie.

The mother and daughter contrast between the English middle-class moral standards and the freer French codes are graphically and logically portrayed, and the post-war life of an English country family in contrast with French society settings is shown in an effective manner.

The part of the mother has greatest potentialities, and that of the daughter is equally as good. The romance between the daughter and a young Englishman who assumes the role of her protector, and with whose family she is visiting, is strong and beautiful.

Other big names in the cast of the picture are Mario Majeroni, Jane Jennings, Maurice Cannon, Paul Doucet and Julia Hurley. "The Little French Girl" was written for the screen by John Russell, author of "Where the Pavement Ends."

### BEDTIME STORY

#### Uncle Wiggily and Honker

Copyright, 1925, by McClure News-paper Syndicate.

(By Howard R. Garis)

Once upon a time, as Uncle Wiggily was riding in his automobile through the woods, near a pond, the rabbit gentleman heard some strange sounds. A voice seemed to call:

"Ter ung! Jer ung! Jer ungging!" "That is a queer kind of talk," said Uncle Wiggily to himself. "Still I seem to have heard it before."

He listened and heard, in much louder tones, the same sort of language, but louder like:

"JER UNG! JER UNG!"

"My! That sounds almost like thunder!" said Uncle Wiggily to himself. "And yet there isn't a cloud in the sky, so it can hardly be that a storm is coming."

Mr. Longears twinkled his pink nose, trying to think what might be

going to happen, and then he heard the voices of two small boy animals whom he knew.

"Did you hear that?" asked one boy. "It was very loud. We can't honk half as loudly as that, Bull!" "No, Bull," but let's try again," cried the other boy, and then Uncle Wiggily heard the two boy animals sing out together:

"Jer ung! Jer ung! Jer ung, sing!"

But from across the pond came in answer:

"JER UNG! JER UNG! JER UNG, ZING!"

"Oh, we never can croak as loudly as that," cried the two boys in sad tones.

"Hello, Bull and Bawly Notail!" called Uncle Wiggily, for now he knew it was the frog boys who were making the small, queer sounds. "What are you trying to do?" asked the bunny.

"Oh, hello, Uncle Wiggily!" croaked Bull, hopping out of the sweet flag rushes at the edge of the pond. "Why, Bawly and I are trying to turn into big honkers, like Mr. Bull Frog on the other side. Did you hear her last few unmanly honks?"

"Uncle Wiggily drove off in his auto, leaving Bull and Bawly on the bank of the pond, croaking away and trying to make their voices louder than that of Mr. Bull Frog."

The rabbit gentleman in his auto drove through the woods, looking for an adventure, but he did not seem to find any, so all of a sudden, just as he turned the corner by the tall fern bush, out popped the Bob Cat, who chased after him.

"You can't catch me!" cried Uncle

fair. Collections have been very slow.

Toronto, wholesale and retail trade reasonably active. The industrial situation is slightly better. Prospects of returns from the agricultural products are good. Collections fair.

Winnipeg, the favorable conditions in connection with the western market are having a stimulating effect on practically all lines of wholesale trade. Greater activity being reported in dry goods, clothing, boots and shoes and hardware lines.

Montreal boot and shoe sales have been fairly good for the last week, collections not very good. In hardware, sales have been fair. Grocery sales steady. Dry goods, sales

on account of northern traders' business. Other business normal.

Calgary, business generally inclined to be quiet, pending the harvest, which will be in full swing soon. Collections fair.

British Columbia wholesalers re-

port business fairly good with collections fair. Dry goods, clothing, boots and shoes and hardware lines.

Rainbow, wholesale trade fair; retail business in the city fair. Collections have been holding up fairly well.

Regina, wholesale trade reported steady with improvement shown and prospects good. Retail trade fair generally. Collections fair.

Saskatoon, wholesale trade fair; retail trade poor with the exception of grocery. Collections fair; crop conditions good.

Edmonton, wholesale trade active.

For a moment Mr. Smith surveyed her. "What?" he said, "did it have a cloth on?"

"Fine!" said Smith.

"I am glad you enjoyed it," said the wife. "Now, did you do with the cloth?"

"I support because he was the late" that "at the same time relationship

was not good.

Mr. La Follette said he did not ask Senator La Follette's son, asserting "does not disqualify me."

## SKELETONS OF SACRIFICE VICTIMS FOUND IN JAPAN

Tokio, Aug. 17.—Considerable interest is attached to the recent discovery beneath the corner stones of the Namban Bridge (main bridge of the Imperial Palace) of eight human skeletons. Most of the skeletons were found upright about twelve feet below the bed of the Palace Moat, which is undergoing repair work necessitated by the earthquake of 1923.

The theory of some Japanese scientists is that the skeletons are the remains of persons who, several centuries ago, offered themselves as "Human Pillars" for the immortalization of the cornerstones used in constructing Edo Castle. The tradition of the "Human Pillars" is an old one in Japan. In the past age it was believed that if human beings were buried alive beneath the cornerstones of great structures, the gods would be pleased to receive the strength and solidity to the foundations and, in addition, those who thus sacrificed themselves, would become immortal. It was considered that those chosen as "Human Pillars" were greatly honored. They were buried alive in a standing position.

The first traditional instance of the "Human Pillars" remains in Japan dates back to the reign of Emperor Nintoku, more than 1,000 years ago. The Yodo River at Osaka, where the emperor had his palace, used to overflow each year, drowning many people and causing much damage. Every dyke built by the best engineers was unable to withstand the floods. One day the people believed that if the gods had advised him if he would use human bodies as pillars for the construction of the embankment, there would be no more flood troubles. The story has it that the emperor immediately caused human beings to be buried alive beneath the foundation stones of the dyke and, since then, the embankment has withstood all floods.

Mr. Smith was very fond of a kind of boiled pudding his wife made; so when she went away for an afternoon and evening she promised that she would leave one of the favorite puddings in the saucépan for his puddings.

"How did the pudding go down?"

"Fine!" said Smith.

"I am glad you enjoyed it," said the wife. "Now, did you do with the cloth?"

For a moment Mr. Smith surveyed her. "What?" he said, "did it have a cloth on?"

"Fine!" said Smith.

"I am glad you enjoyed it," said the wife. "Now, did you do with the cloth?"

"I support because he was the late" that "at the same time relationship

was not good.

## C.P.R. Flash Fine Form To Win Island Ball Championship

Defeated Nanaimo in Final Game Saturday Afternoon By Score of 11-3

## Forbes Pitched Good Ball For Locals; Two Homers Poled Out

Playing real championship ball behind the splendid pitching of Norm Forbes, the C.P.R. local champions, won the Island senior amateur baseball championship at the Royal Athletic Park on Saturday afternoon, by defeating Nanaimo, Mid-Island League winners, by the score of 11-3. This was the third and deciding battle of the series. Nanaimo having won the first game, the locals the second. The battle was witnessed by a fair crowd who were treated to a real good game.

This is the second consecutive year the C.P.R. have won the title, and as result of Saturday's victory they earn the right to meet the mid-island champions in the final series for the British Columbia championship. It is not yet known what team they will play, but it will be either the Young Liberals of Vancouver or Fraser Cafe of New Westminster.

Once again Norm Forbes humbled the Coal City nine. Last week he hurled the raiders to a victory over Nanaimo, and he succeeded in repeating the trick on Saturday. Forbes pitched a two-hitter in hand the whole way and was only in trouble a couple of times. On Saturday he allowed only five scattered hits, while he struck out twelve. He gave only one batter a free passage to first.

Nesbitt, who was on the mound for Nanaimo, was touched up for eleven safeties, while he struck out eight. Six of the C.P.R. slingers worked him for walks.

The C.P.R. fielded a great form during the first inning and well deserved their victory. Not a single ball was chalked up against them on Saturday. Nanaimo were responsible for three miscues.

The fans were given plenty of thrills as two home runs were poled out during the game, each side getting one. Beattie, hard-hitting centre fielder of the Uplanders, lifted one over the centre field fence in the second inning, while Forbes brought the crowd to their feet in the ninth when he crashed the ball out of the lot.

Another feature of the game was the fine work of the local players on the bags. They pilfered no less than eight bases. Harry Copas alone getting four, while Art Minnis was responsible for three.

**C.P.R. OPEN SCORING**

The C.P.R. opened the scoring in the first inning when Harry Copas singled, stealing second and third. He scored when Fetherstone went out Edmunds to Perry.

Nanaimo evened up the score in the second inning when Beattie knocked one of Forbes's straight ones for a circuit clout.

Both teams went scoreless in the third, while in the fourth inning the C.P.R. accounted for a couple more. Richdale hit safely, advancing to second on Beattie's error. Roy Copas doubled to left field, but Richdale held third. Bill More lined out to him through short, both runners scoring.

**NANAIMO EVEN UP**

The locals' advantage was short lived as in their half of the inning Nanaimo again tied up the count. Nesbitt got to first when his third strike hit the grandstand. Perry was hit by a pitched ball. Beattie secured his second hit of the game. Nesbitt scored. Brown popped up to the plate. Nesbitt made a great catch, but Fetherstone bungled up a double play when he missed the throw, both runners advancing. Perry scored when Harry Copas played Milburn's grounder to first.

**BATTING RAMPAGE**

No further scoring was done until the seventh, when the C.P.R. went on a regular batting spree, scoring three runs which practically cinched the game. Falconer Campbell walked and was sacrificed to second. Fetherstone worked Nesbitt for a free passage. Minnis singled. Harry Copas crossing the plate. Fetherstone scored when he hit Perry three to the plate. Minnis scored when Edmunds bungled Richdale's grounder.

In the ninth the locals made their victory secure by adding five more runs to their total. Minnis hit safely, stole second and went to third when the catcher's throw hit him. Richdale walked. Roy Copas hit a Texas leaguer. Minnis scoring. More hit, safely, Richdale coming home. Forbes cleared the bases when he bunted the ball over the left field fence.

Roy Copas and Art Minnis led the local batters, each getting three hits and five trips to the plate.

Beattie was the leading slugger for Nanaimo with three safeties out of four times at bat.

Murray and Boyd of Vancouver affiliated as umpires.

## Finals Played In Tennis Tournament At Victoria Club

### J. Proctor Wins Singles by Defeating D. M. Gordon; Marjorie Leeming Wins

In the final matches of the Victoria Lawn Tennis Club's handicap tournament played on Saturday afternoon, keen competition featured all the games.

A final was witnessed in the final of the men's singles, in which John Proctor was defeated by the veteran D. M. Gordon in three sets, the scores being 7-5, 6-2, 6-2.

An interesting feature in the ladies' open singles was that two sisters met in the final game, Miss Marjorie Leeming, defeating her sister, Hope, by the score of 6-0, 6-2, 6-2.

The results of the matches were as follows:

#### MEN'S OPEN SINGLES—

SEMI-FINALS

Gordon defeated McCallum 6-3, 6-4.

Proctor defeated Garrett by default.

#### FINAL

D. M. Gordon defeated J. S. Proctor 7-5, 6-2, 6-2.

#### LADIES' OPEN SINGLES—FINAL

Miss M. Leeming defeated Miss Hope Leeming 6-0, 6-1.

#### LADIES' HANDICAP SINGLES—FINAL

Diss. H. Leeming (—15) defeated Miss M. Miller (—15), 6-3, 3-6, 6-2.

#### LADIES' HANDICAP DOUBLES—FINAL

Mrs. Verley and Miss Peatt (—30) defeated Miss Nelson and Miss Crease (—15), 8-6, 6-3.

#### MIXED HANDICAP DOUBLES—SEMI-FINAL

Miss Hunter and Christy (—13) defeated Mrs. Verley and Merton (—15), 6-1, 7-5.

Miss Leeming and Proctor (—50) defeated Miss Hunter and Christy (—15), 6-1, 6-2.

#### MAINLAND ELEVEN

Leading the fight to his opponent the whole of the way, Joe Bayley awarded the decision in the Victoria's semi-final ten-round bout at the Willows Arena on Saturday night. A good crowd was in attendance but the main battle was disappointing on account of Behnson's resorting to clinching tactics. In the preliminary bouts some good mixing was seen, all the contestants being willing to take plenty of punishment.

In the scheduled six-round semi-final between Baptiste Thomas, the "Indian Wonder," and Sam McPhee, ex-light heavyweight of the Royal Navy, the Indian landed a knockout punch in the fourth round after he had had the best of the fight. McPhee had not been able to hold his own and his blows seemed to lack power. For the first couple of rounds the Indian seemed to play with his opponent but in the third frame he opened up and surprised the spectators with his quickness and ring knowledge. He had made four hits, including a home-run and double in five times at bat.

The Athletics were idle yesterday, but the defeat of Washington advanced their lead in the American League to two games.

#### HOMER HELPED OUT

Rogers Hornsby helped St. Louis to a tight-hold on the tail-end of the front row by hitting his thirty-third home run of the year in a 6-6 victory over the Cubs. The margin between St. Louis and Brooklyn was reduced considerably as the Robins dropped a double-header with the Philadelphia 7-4 and 9-2. The double victory pulled the Phillips to within two-and-one-half games of the Robins, who are now in fifth place.

#### MAIN TENNIS

Everybody seemed disappointed in this tourney and at times some very brilliant batting was witnessed. Particularly enough, however, apart from many splendid catches, both sides did not measure up to their usual excellence in bowling or fielding. Indeed, as far as the home team was concerned, both the Cobbett and "Reggie" were somewhat disappointing, neither seemed able to find the spot, although they bowled throughout with consistent good length. Then, too, the unfortunate accident that befell Ashley Sparks had much to do with his side's collapse. For a fast ball at "Reggie" from C. A. Wood, Mr. Sparks took a muscle of his leg, and had to be carried off the field. Also, perhaps, the "fast" wicket was another determining effect on the locals. Victoria's hero on occasion was George Wenzel, who had splendidly to save his side from defeat. The game started at 10:30 a.m. and stumps were drawn at 6 o'clock. The weather was perfect cricket weather, and in the afternoon there were nearly a thousand spectators present.

The first preliminary between Rogers Hornsby and St. Louis' Tommie St. Louis, was a disappointment, the two sides being evenly matched. The two players put up a good exhibition.

Plenty of battles were seen in the four-round bout between Danny Pascoe, representing Victoria, and F. Brooks of Oaklands in the 125-pound division. Pascoe is a fighter of the slugging style and his arms were going like a windmill the whole time. Pascoe was awarded a judges' decision.

In the bout between Tommy Fielding of Victoria and Ted Noble of Vancouver, about the best exhibition of the evening was seen. These boys were in the 125-pound class and battled four rounds. Fielding, who was quite a bit smaller than his opponent, showed remarkable footwork, and if he is taken in hand by an experienced trainer he should prove one of the best boxers ever developed in the city. Fielding was awarded the judges' decision.

In the bout between Tommy Fielding of Victoria and Ted Noble of Vancouver, about the best exhibition of the evening was seen. These boys were in the 125-pound class and battled four rounds. Fielding, who was quite a bit smaller than his opponent, showed remarkable footwork, and if he is taken in hand by an experienced trainer he should prove one of the best boxers ever developed in the city. Fielding was awarded the judges' decision.

On entering the ring, for his bout with Baptiste Thomas, Sam McPhee was presented with a gold watch and a box, suitably engraved, as a token from members of H.M.S. Capetown.

#### NATIONAL LEAGUE

Cincinnati, Aug. 17.—Cincinnati took two out of three games in the current series by defeating the Pittsburg Pirates 7-6, 10-9. At one time they hammered Morrison for two doubles, a single and a triple and scored three runs before he got his bearings:

R. H. E. Pittsburgh ..... 1 11 0 Cincinnati ..... 6 12 0

Batteries—Morrison, Sheehan and Spencer; Rixey and Hargrave.

#### WILLIAMS HITS WELL

Brooklyn, Aug. 17.—Philadelphia took both ends of a double header with Brooklyn yesterday to end 9 to 2. C. Y. Williams led the assault with seven hits, including a home and a triple. Cox made hits in both games, making 17 straight in which he has batted safely.

R. H. E. Pittsburgh ..... 1 11 0 Cincinnati ..... 6 12 0

Batteries—Morrison, Sheehan and Spencer; Rixey and Hargrave.

#### ROOKIE WINS

Brooklyn, Aug. 17.—Philadelphia took both ends of a double header with Brooklyn yesterday to end 9 to 2. C. Y. Williams led the assault with seven hits, including a home and a triple. Cox made hits in both games, making 17 straight in which he has batted safely.

R. H. E. Pittsburgh ..... 1 11 0 Cincinnati ..... 6 12 0

Batteries—Morrison, Sheehan and Spencer; Rixey and Hargrave.

#### ROOKIE WINS

Brooklyn, Aug. 17.—Philadelphia took both ends of a double header with Brooklyn yesterday to end 9 to 2. C. Y. Williams led the assault with seven hits, including a home and a triple. Cox made hits in both games, making 17 straight in which he has batted safely.

R. H. E. Pittsburgh ..... 1 11 0 Cincinnati ..... 6 12 0

Batteries—Morrison, Sheehan and Spencer; Rixey and Hargrave.

#### SECOND TENNIS

St. Louis, Aug. 17.—Pitching the second game, Tommie St. Louis, of the Cardinals, was the best pitcher of the evening. He had 17 strikes and 11 misses, while the other pitchers had 14 strikes and 15 misses.

R. H. E. Pittsburgh ..... 1 11 0 Cincinnati ..... 6 12 0

Batteries—Blake, Kaufman and Sherrill; Sherrill and O'Farrell.

#### YOUNGSTER WINS

Moore, Aug. 17.—Saskatchewan's sixteen-year-old boy prodigy, Tommy Russell, of Moose Jaw, won the provincial amateur championship yesterday. He defeated the veteran, C. P. Chisholm, Regina. Earlier in the week he had won the provincial junior championship.

#### AMERICAN LEAGUE

Cleveland, Aug. 17.—Cleveland defeated St. Louis 7-6, 6, yesterday, winning in the ninth, when Speaker doubled and Sewell and Spurgeon singled. Neither Buckey nor Van Gilder, who started the game, was able to finish.

R. H. E. St. Louis ..... 7 11 0 Cleveland ..... 6 10 0

Batteries—Blake, Kaufman and Sherrill; Sherrill and O'Farrell.

#### ROOKIE WINS

Moore, Aug. 17.—Saskatchewan's sixteen-year-old boy prodigy, Tommy Russell, of Moose Jaw, won the provincial amateur championship yesterday. He defeated the veteran, C. P. Chisholm, Regina. Earlier in the week he had won the provincial junior championship.

## Giants Gain Half Game By Splitting A Double-header

### Broke Even With Boston While Pittsburg Lost to Reds; Plenty of Homers

In the final matches of the Victoria Lawn Tennis Club's handicap tournament played on Saturday afternoon, keen competition featured all the games.

A final was witnessed in the final of the men's singles, in which John Proctor was defeated by the veteran D. M. Gordon in three sets, the scores being 7-5, 6-2, 6-2.

An interesting feature in the ladies' open singles was that two sisters met in the final game, Miss Marjorie Leeming, defeating her sister, Hope, by the score of 6-0, 6-2, 6-2.

The results of the matches were as follows:

#### MEN'S OPEN SINGLES—

SEMI-FINALS

Gordon defeated McCallum 6-3, 6-4.

Proctor defeated Garrett by default.

#### FINAL

D. M. Gordon defeated J. S. Proctor 7-5, 6-2, 6-2.

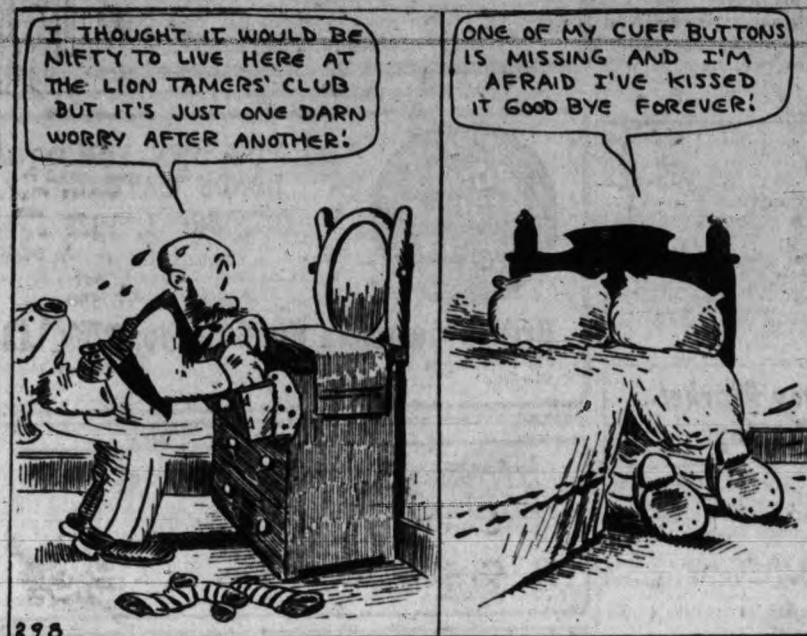

#### LADIES' OPEN SINGLES—FINAL

## SERIAL STORY

### "THE LOVE CYCLE"

BY MILDRED BARBOUR

#### A SELF-MADE WRECK

Meanwhile, Jane, all unconscious of Mansfield's plight, was working in New York.

She had become in a secretarial capacity shortly after her arrival, with a woman suffrage organization.

It was not very long before her keen vision proved full rein for the first time, proved her ability to be far beyond her position. She became an executive in the organization, and was commanding a salary which far exceeded any she had made before.

Her interest in her work kept her from thinking of Mansfield's love which might have been hers if she had not herself. She had money to set her mother, money enough to dress herself smartly, and to provide for a small apartment where she lived pleasantly and well.

For the first time since the death of Jordan Marlowe, she was almost happy.

Ellis Haynes was the fly in the ointment. Though she had long since discarded him as an husband, he persisted in annoying her. He would ring her up frequently at the suffrage headquarters. Often she found him lounging on a street corner when she came from work. She knew he followed her, and she used to take round about ways home to avoid letting him know where she lived.

She could foresee what would happen, even though she maintained the little apartment he maintained. He would come and demand a home there as his right. She was a little sorry for him, but more ashamed, for he had degenerated horribly in the past few years.

He was now undoubtedly a deformed. The inevitable transition from deformed had made him an emaciated wretch. He who would have once been the pink of perfection in his attire, was now untidy and shoddy and down at the heel. His clothes were shabby and his linen was rarely clean.

Jane, her former affection for him dead, wondered at the change, but felt more pity for him than resentment against him. But after all she reasoned, he was a self-made wreck.

He was too quick for him and caught him again by the arm.

"You stay here and have this out with me yet."

At that moment the crowd was thrust aside by an official baton. There was a gleam of blue coat and buttons and a gruff voice demanded:

"Hey, what's the trouble here?"

Haynes, whirling to face the policeman, suddenly cringed. He began to whimper about his injustices and the unfairness of the world which would not let him protect his own wife. The officer eyed him coldly and turned to the young newspaper man.

"What's this all about? Who are you? What's this guy yelling about?"

"She is, and I am taking her home where she belongs; you can see the condition this fellow is in."

"Wait a minute, wait a minute, we've got to look into this, not so fast, young man."

The newspaper man reached in his pocket and drew out a card which he handed to the officer.

"I am Worley, of The Record, as you see. I cover police, incidentally. I know the sergeant of your precinct well. Unless you are new to this beat, you must have seen me up there."

"I guess it's all right," he decided, "you fellows on The Record are a pretty good bunch; we'll let it go at that."

He turned to the crowd.

"Men on there, Whadya mean blockin' the street at this hour. Ain't you got home to go to?"

The crowd melted away as if by

magic; the newspaper man beckoned a waiting taxi and hurried Jane into it. They were plucked back to safety, the officer, standing in the middle of the sidewalk, looking after Haynes who was fast disappearing in the distance.

"I ain't necessary to go with me," Jane said as she laid her hand on the young man's arm. "Thank you for the splendid way you acted, and please let me apologize for causing you the embarrassment you must have suffered."

"Ouch, that was nothing," he laughed. "I was all in this day's work. Besides, I got a lot of kick out of championing a beautiful lady in distress. I'm sorry though that you had to be annoyed; I guess it's awful for a girl to have a Broadway crowd gaping at her in a situation like that."

When they reached her apartment, he said hesitantly:

"Will you still let me come in? I'd like to mighty well, and I think there ought to be somebody here in case that chap tries to be nasty again."

Jane controlled the nervous reaction which urged her to tears or hysterics and said cordially:

"Please do, you deserve the best

supper I can make you after what you went through for me."

They were plucked back to safety with Jane forcing herself to a gaiter she could not in the least feel. When the front door closed behind him, she sank down nervously on a hall chair and remained there nearly an hour, staring fixedly before her.

She knew she could never go through another such scene. In the morning, she would go away for a while at least and try to pull herself together.

#### THE RESPISE

After the scene with her husband, Jane went to the country. At the end of the week, she announced that she was near a nervous collapse and must have a rest.

"That's too bad, my dear," the director assured her, "but you must come back; you are one of our best workers."

With the assurance that she was not giving up her position, which provided an income for her mother and herself, she closed her little apartment and set out for Virginia.

Her mother was already there, visiting some distant relatives for the Summer months. Jane had met

these kindly people when she was a child but had never seen them since.

Mrs. Marlowe had kept up the relationship. In the old days of her prosperity, she had looked rather apprehensively at their occasional visits for, they were southerners of the old school, charming and cultured people, who shamed an affectionate wife.

They had hardly fitted in to the smart luxury and ultra-modern frivility of the Marlowe menage.

As in all such reversal of fortunes, Mrs. Marlowe was now glad she had kept up the relationship, and she was conscientious enough to be patient for her patronage of former days.

She arrived at the Dunlops in the fragrant dusk of a June day, thought she had never seen anything so restful and charming as the old white house with its green blinds, set well back in a garden where flowers grew riotously. There were pigeons in the trees, birds where birds nested, uttering soft sounds of contentment. The scent of clover came from the rolling meadows and far away on the hillside was the tinkle of sheep bells.

To be continued.

## FOREST FIRE IN CHILLIWACK REGION

Victoria, Aug. 17.—Sweeping across the summit of a mountain south of Chilliwack and east of Cultus Lake, a large forest fire is burning fiercely and giving considerable

trouble to the forestry officials, according to Crown Timber Agent Edward Walmsley. The fire started a week ago in the limits of the Campbell River Logging Company. After burning through the company's limits and the timber owned by the Westminster Mills, the fire is extending into the mountains, and is now eating its way rapidly towards extensive timber tracts on the other side.

Between the fire and the timber the forestry officials have constructed a fire guard two-and-a-half miles in length and with this hope to check the outbreak.

## ABSENTEE VOTE TO BE REVIEWED BY LEGISLATURE

Hinchliffe's Investigations Convince Him Present System Dangerous  
Shows How Envelopes Can Be Unsealed; Alternative Plan Proposed

British Columbia's system of absentee voting is expected to undergo fire at the next session of the Legislature. Leading Conservatives, it is understood, among politicians here, will join in a vigorous demand for the abolition of the system altogether. Failing this drastic change in the law, they have an alternative scheme for making the Province safe for absenting voting.

John Hinchliffe, Conservative member for Victoria, who has taken a foremost part among Conservatives in discussions of election law, has just completed a careful inquiry into the absentee ballot. He is convinced, as a result, that the present regulations offer the best opportunity for "plumming." With ballots lying uncounted for days after the election, he says, they can be opened by experts and their contents altered.

Mr. Hinchliffe has learned how envelopes can be opened easily so that they may be tampered with. Flaps are not closed and the returning officer's mark is disturbed. The method is simple but extraordinarily effective, as the Victoria member demonstrated to Government officials this week.

It involves only the skilful use of a round piece of wood with which the envelope is quickly closed. It can be put together so as to avoid the slightest evidence of manipulation.

Mr. Hinchliffe has evolved a new scheme for protecting the absentee ballot. It is somewhat complicated but the device upon which it is based is simple. The voter tears a piece of torn paper and places it in the envelope. If this torn paper does not fit into the edge of the ballot then the substitution of a fraudulent ballot is revealed.

## PLAN NEW LAW FOR MEDICAL PROFESSION

Leaders in Irish Free State Say Government Should Control Register

Dublin, Aug. 17.—The death knell of the medical profession in the Irish Free State has been sounded, in the opinion of many doctors here, by announcement of Government's intention to establish a separate and independent medical register and cut loose from the British General Medical Council, by which the medical faculty of Ireland has hitherto been controlled.

The general result of this decision, which is to become effective next February, will be that doctors qualifying in the Free State will be unable to practice in Great Britain or Northern Ireland, while physicians from those places will be barred from Southern Ireland.

### PARLIAMENT TO DECIDE

The government's decision, however, must be ratified by the Irish Parliament and the medical men, it is anticipated, will seek to obtain majorities against the proposal in both Houses.

President Congreve has issued an explanatory statement seeking to lay the fears of the medical profession to rest. Admittedly there may be temporary disadvantages from the arrangement, he says, the Government does not expect any serious reactions.

"It is incompatible with our constitutional status," he adds, "that an important profession have its centre of gravity and disciplinary headquarters in another country."

### LIQUOR SETTLEMENT

St. John's, Nfld., Aug. 17.—Newfoundland has had 1,000 cases of fine quality whisky and 250 cases of dry champagne as the result of the settlement adjusted between the Finance Minister and the steamer Herbert Green, seized last month as a rum runner. Before the settlement awarding the Government one-third of the cargo, the ship was enabled to sail with the remainder yesterday.

## Two Men Injured When Train Wrecked

Calgary, Aug. 17.—Two men riding

in freight cars were badly injured Sunday morning at 4 o'clock, when a C.P.R. freight train was wrecked near Exshaw, between Calgary and Banff.

The accident is declared to have been due to a broken rail.

The men, who were both taken to the hospital at Banff, are Lester Reamer and Alex McCaffery, both supposed to belong to Vancouver. One of these two is reported to be in a critical condition.

The outside of the wagon on which I ride  
Must be as clean and tidy as the spotless inside.

## Helps to Wholesomeness

Just as one has their front and back porches kept clean to faithfully reflect the wholesomeness inside, the house is ap- plied daily to the very wagon that you have grown so ac- customed to see before your home.
